Android Studio

DHANIYEL DARVESH

Web & App Developer

ABOUT ME

I'm a web and app developer with a year of experience in building user-friendly, responsive applications. Proficient in React, REST APIs, and Redux, I have a solid foundation in front-end development and a strong focus on delivering visually engaging and interactive user experiences. With an aggressive approach to mastering React Native, I aim to create seamless and high-performance mobile applications.

WORK EXPERIENCE

2023 - 2024
Freelancer
Front End Developer

With nearly a year of freelancing experience as a self-taught MERN stack developer, I specialize in creating efficient, dynamic, and scalable web applications. Leveraging my skills in MongoDB, Express.js, React, and Node.js, I develop solutions that emphasize responsiveness, user-friendliness, and maintainability. My journey is fueled by continuous learning and a commitment to delivering high-quality code and captivating user experiences.

EDUCATION

2022 - 2024
Bachelor of ComputerScience
Calicut University
